AHRIMAN'S GREAT SOCIAL RESET

It has been almost ten years since the defeat of Ahriman's Great Social Reset and these years have not been kind to all who took a knee to follow (what most historians now call) their flawed guru in his mad dream to restore "Peace and Harmony" by dragging Western Civilization kicking and screaming back to what he considered to be a time of blest – which was the Feudal times of the early 13th Century. His promise, his dream was to take all of CIS Humanity back to an age where he promised that everyone would be happy because they would own nothing. The logic he argued was due to human nature to gather, collect and horde all types of material processions beyond their ability to consume or use while devoting all our time to acquire even more in an endless cycle of unfilled lust and greed!

AHRIMAN'S GREAT SOCIAL RESET

Early on his message resonated and spoke to an empty void in the soul of a vast number of the younger generation in many of the Western Nations (Which would go on to be called the Coalition of the Willing Confederation) and was fueled by the extensive and expensive social media blitz organized by his advance teams from the WEF Goonies to plant social group pressure and shame the Lost Children of the Woke (Wookie) into believing that they alone were responsible for all of society's misdeeds and acts of injustice.

With the aid of assorted militias like the Antifa Militia, Ahriman's personally recruited assortment of off-world Rent-A-Thugs not to mention the controversial Jedi Refugees and later, the Llyod Austin Bigender Brigade; he

AHRIMAN'S GREAT SOCIAL RESET

was able to sweal most pushback when the general populous realized that he was serious about the “You will own nothing” pledge that he had made in his campaign commercials.
Ahriman discovered that much of the business plan that his advance staff from the WEF Goonies had developed to conquer and rule the Coalition’s Federation had been heavily lifted from a very similar operational plan by Pol Pot who had tried and failed to implement the same utopian dream of restoring harmony in the South-Eastern Nation of Cambodia (formally a part of French Indo-China).
As Ahriman would soon learn that this plan was deeply flawed and he was forced to withdraw militia units from the frontline of his long, bitter war with the Republic of Texas to conduct house by house raids to seize contraband, personal belongs .

AHRIMAN'S GREAT SOCIAL RESET

In retrospect, Ahriman's failure to grasp that CIS Humans have had almost a million years of self-isolation, home rule and while they were generical-related to the First Humans that he had ruled over before they revolted against him and formed the first labor unions to contest labor conditions in the Gold Mines in what is now Southern Africa; these new off spouts were much more prone to corruption, greed and unstable than their distant cousins. This first manifested itself was the mass Winnebago and U-Haul Caravans of none other than the rank-and-file WEF Goonies who fled south toward Mexico with their horded riches weighing down their pleasure wagons once they realized that "You will own nothing" applied to them, also.

Then, the Antifa Militia mutinied over the fact

AHRIMAN'S GREAT SOCIAL RESET

that Ahriman demanded 90% of the booty that they had looted from the no-man's land on the Republic of Texas Border.

This led to the bitter Anifia Insurrection where they freed the original Big Guy from a secure Nursing Facility on Long Island thinking that they could rally the public as the original Big Guy (Little Joey Buyhim and his boy DeHunter) was far less greedy in that he never demanded more than 10%.

The Insurrection failed in large part due to the fact that time had not been kind to Little Joey and no matter how much Fentanyl they pumped into him, they could not revive him to even wave without a nurse's assistance.

Later, his boy, DeHunter would surrender Chicago and the Midwest in exchange for his appointment as Governor General of Australia.

Amongst the truth(s) that they dare not broadcast include that the war against the Insurrectionist in the Republic of Texas goes badly for the joint force of (still loyal) Antifa Militia mixed with the off-world rent-a-thugs that Ahriman imported to restore order and their leadership headed by Jedi Refugees. Truth of low morale amongst rank-and-file militia members are rampant in the Free World Press as they freely desert or secretly form rouge bands of raiders in the wasted frontier lands is a huge story that you will never see on state-media's CNNister. Neither will Ms. Rachael tell you details of the growing consumer underground (black-market) which has spread across many sections of Ahriman's Coalition of the willing Federation by means of illegal, rouge

shortwave receivers salvaged from abandon basements or lost civil defense shelters from the previous century to spread taped episodes of the Korean Home Shopping Network (KHSN) broadcasted from derelict oil rigged out in the Gulf of Mexico even after high ranking officials within Ahriman's Inner Council were discovered to have participated in such trading.

for all of you faithful viewers of CNNister who are hearing this reported for the first time; we are talking about the dramatic fall of one of brightest stars of Ahriman's Inner Council, Secretary IWASME (formally known as Mayor Petey who rose to national attention under the reign of the original "Big Guy" for his dedication to dismantling all of the racist roads, highways and bridges of the old

Amerika) when it was discovered that he had used his Ahriman Social Credit Score Mastercard to purchase contraband Nike goods on the black market.

Even though the Free World had declared him to be evil person for his direct roll in bringing about the economic collapse that gave way for the WEF Goonies to seize control of many western nations; I do hold a slight sadness for what became of him being sentenced to 20+ years at the most cruel of the FEMA Re-Education Training Centers (the notorious Camp Mit out in the wilderness of what was once known as Utah and named for it's first camp commander who had been a US Senator before it was "cancelled" by an Ahriman Executive Order) and to his tragic end will working as a forced laborer for the "Coalition of the Willing" Labor Camp as they worked to

salvage usable materials out of the irradiated outskirts of what had been the city of Salt Lake City (which for my CNNister viewers was regrettably nuked by rouge elements of the Lloyd Austin Biometric-Enhanced Multi-Trans Spectrum Gender Brigade after a long seize of the city as the Mormon Church Officials declined to accept the reality that there are 72+ actual genders and it became oblivious their insurrection could not go unchallenged. The vague reports of his passing were sketchy, at best, given his early conversion to Transhumanism with his conversion to a robotic outer core being preformed by top researchers at the Skynet Corporation's Main Research Facility outside of San Francisco and his insistence on not having Billy D. Gated's Aceme Industry nanochips utilized in his mainframe wiring.

AHRIMAN'S GREAT SOCIAL RESET

It would seem rather odd that this Ahriman Iron Man would/could die of radiation poisoning is hard for a free mind to phantom. Even odder was that these details were broadcast on the 3AM News for the nanosomic minions months later.

Looking back on the events of the evidential breakdown, decline of Ahriman's Great Social Reset and his vision of following through on our old pal, Pol Pot's visionary green attempts to restore CIS Humanity back into the environmental-friendly thirteenth Century and to recreate those Feudal Times when the whole of CIS Humanity had nothing and from the records keep by the overlords - they were extremely happy lot; Ahriman made many of the same mistakes as Pol Pot in that he put his trust in a small cadre of what he thought to be

AHRIMAN'S GREAT SOCIAL RESET

true believers to help him save CIS Humanity from their own wickedness.

I will grant you that Ahriman had been away from the Mining Colony #1 (Earth) for a very long time since he lost his exclusive (1000-year) contract with God to manage the mining colony's administration to the Reptilian Overlords who conned the First Humans to organize Labor Unions while encouraging them to stage the shutdown of the gold mines in what is now known as Southern Africa and as the strikes grew, Ahriman was booted and the Reptilian Overlords seized control.

In the end, they too were swept away by what they had wrought and it was decided to eliminate the problem with a universal flood as the First Human Labor Unions grew bolder with their demands for a day of rest, universal

healthcare and a living wage.

Most of the younger readers who are unschooled in the hidden history of the First Humans from the Mystery Schools (like I was with the Mystery School of Alexandria Home Study Course) will recall this event as the "Noah" Flood where Noah was the leader of the non-union scabs that had agreed to cross the picket lines and who were given advanced warning of the coming worldwide disaster cause by the usage of HARP Technology to multiplate weather on a global scale by the Reptilians.

Now, the story is much richer in actual details but, for my hipster, nerdy readers, I will leave the tale as such assuming that this Reader's Digest version will be enough to get on with the story that I was attempting to give.

AHRIMAN'S GREAT SOCIAL RESET

Again, I will give you the point that not only has Ahriman been away from the action for a very long time not to mention that he his a whole lot older than he was back then and to agree that his mistakes had to do with the fact the mining colony #1 (Earth) has been a wild west, “Mad Max” immoral world ruled by generation after generation of the children of the anti-union scabs who survived after the flood and the recall of the Reptilian Overlords back to their home world due to their misguided, union busting that led to a total collapse of the mines and the death of their highly trained workforce…

Economics 101!

The biggest problem arose from not within the Globalist or even the Corporate Elitists like his WEF Goonies who he mistakenly entrusted to

AHRIMAN'S GREAT SOCIAL RESET

do the advance work and promos for his highly stage Reincarnation Spectacular Event where he was introduced to the world as a Black, Puerto Rician, Eskimo, Single Birthing Person followed by star-studded extravaganza at Studio 54 as all the ticky-tacky influencers and Hollywood Bigwigs publicly took the knee to get their name on the first waiting list for Transhumanist Conversion by those friendly eggheads over at Skynet Industries; the problem came from the rest of the world that have grown tired of thousands of years of having nothing and quickly had a falling out with Ahriman after it became clear that he (personally) planned on keeping all of the things that those goofy first world gangsters were happily giving up "to be happy" for himself instead of giving it back to them – as it

AHRIMAN'S GREAT SOCIAL RESET

had been stolen mostly from them in the first place.

Collectively they agreed that was too much especially as they believed that Ahriman was moving all of this off-world to his rumored chain of second hand stores throughout the universe and star gated communities.

Then, there was the Russian Federation who said that they already had a God were quite happy with him even though, Ahriman made a convincing plea to them that their God was an absentee landlord for going on a million…billion like earth years and in fact, was his boss and that he had a 1,000-year contract from God to run the whole planet.

Still, they said "No Thanks!" and joined with China to form to muscle behind the establishment of the Free World Nation Consortium.

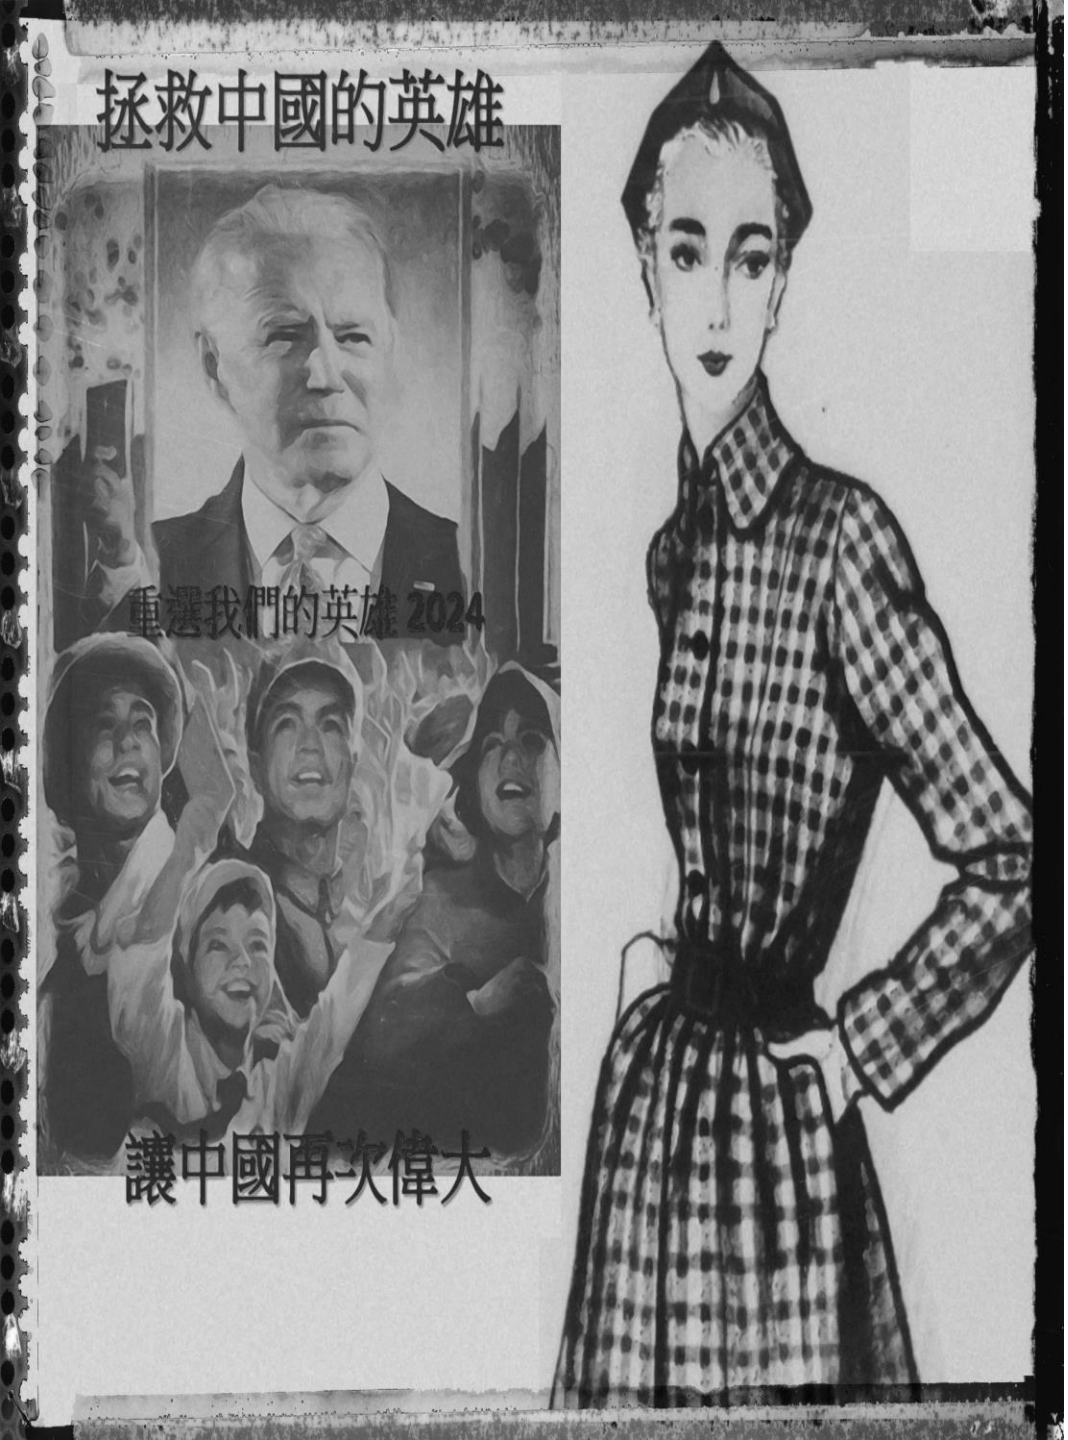
AHRIMAN'S

GREAT SOCIAL RESET

AHRIMAN'S GREAT SOCIAL RESET

Even within the "Coalition of the Willing" there have been problems like the establishment of the Republic of Texas' Insurrection going on for the past ten-year. Many now question and even openingly deny that they were ever swayed by Ahriman or his message as his star starts to swiftly fade and even some of his loyalist WEF Goonies have soured on his insistence that they personally share in his dream of "Owning nothing but, being happy."

Many of his loyal and early followers have fled to various nations within the Free World where they have come to be reunited with the wealth/possessions that they successfully hid in the great draw down(s) where people volunteered even treasured family items to the greater good of the Social Reset and to the glory of Ahriman.



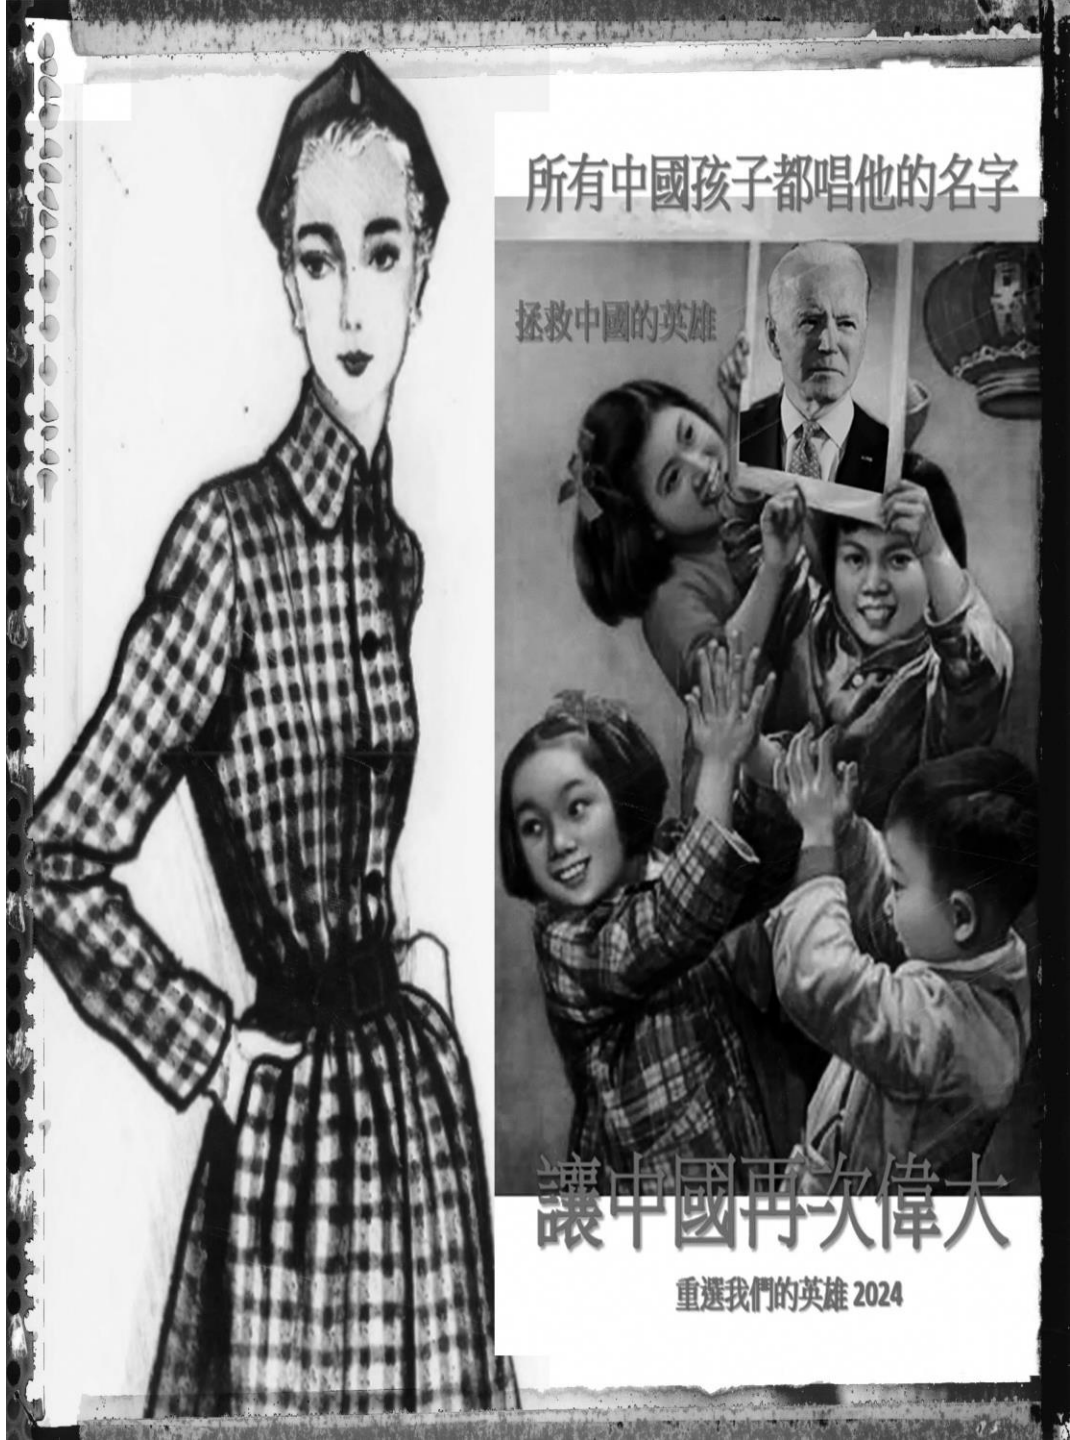
AHRIMAN'S GREAT SOCIAL RESET

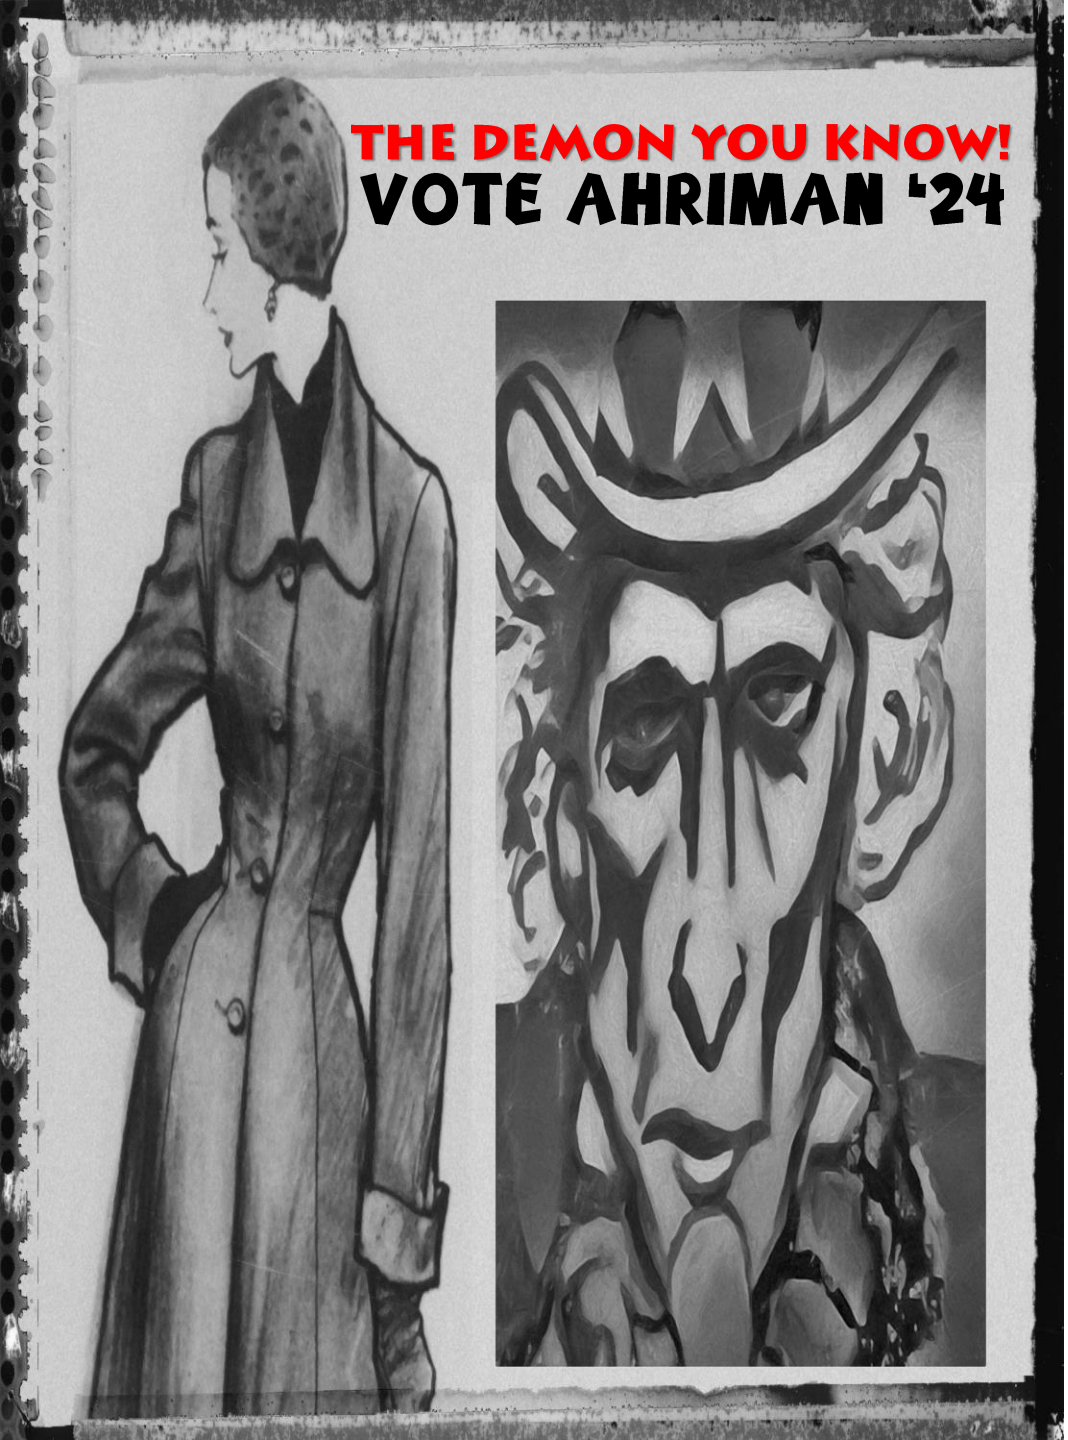
I am not sure how much we should rehash about the greatest threat to Ahriman with the open insurrection not only by the new Republic of Texas or (more importantly) the frightful uprising of the Antifa Militia and their efforts to reinstate the original “Big GUY” (Little Joey Buyhim and his boy DeHunter who would go on to betray the rebellion and his father by surrendering Chicago and most of the upper Midwest to Ahriman’s Jedi led Legion of off-world rent-a-thugs to become the Viceroy of Australia) out of his maximum security nursing home due to their anger over Ahriman’s command that they submit 90% of all the spoils of war they were looting, pillaging or outright stealing from the battle in the no man's land between CWF and the Republic of Texas (ROT).

AHRIMAN'S GREAT SOCIAL RESET

They tried to rally their battle-harden troops by broadcasting how the original Big Guy was far less greedy as he never asked for more than 10%.

In retrospect, any rational person of whatever of the 72+ genders could see that time has not been kind to the old Big Guy and no matter how much fentanyl and cocktails of banned pharmaceuticals that they pumped into him could make him do more than dribble from his month Least, we should not fail to mention the class action lawsuits brought by senior members of the Jedi Refugees who claimed that Ahriman's Scientist understood that the utilization of Jedi Mind Control (and especially Vulcan Mind Melting) on CIS Humans could cause long term brain damage to the Jedi Warriors who came here as refugees after





AHRIMAN'S GREAT SOCIAL RESET

Ahriman enticed them to join his battle minions by making Mining Colony #1 (Earth) a sanctuary planet for Jedi escaping criminal charges in the Empire.

All these things had not been a part of Ahriman's original business plan to take over the world.

As the (now) wildly respected sage of the lost gold age and just recently republished in his famous quotes on life, reality and hope; Master Guru Forrest (DeGump) once was heard to have said:

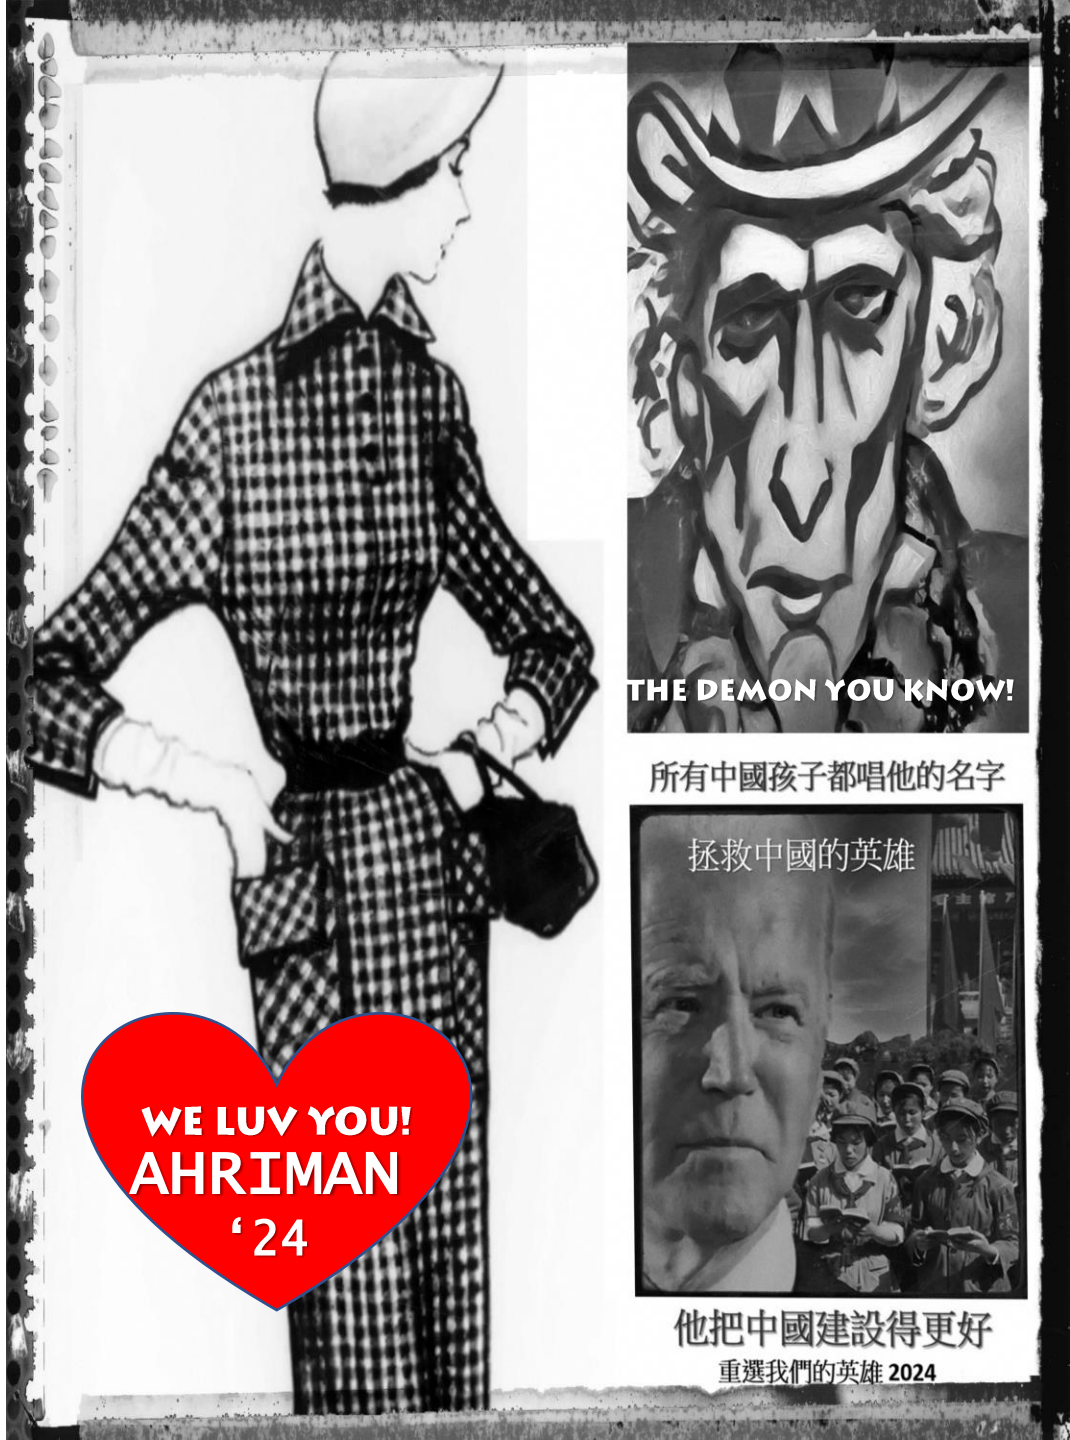
"SHIT HAPPENS!"

In Ahriman's case, a lot of unplanned shit befell his best efforts and his Great Social Reset became the bunt of many a cruel joke whispered in every corner of his once powerful Federation.

AHRIMAN'S
GREAT SOCIAL RESET

AHRIMAN'S GREAT SOCIAL RESET

It would be fair to say and I am sure that future historians well come to much the same the conclusion that his time had pasted before he even started and was doomed to be but an ugly footnote in the history books. Many are wildly speculating that Ahriman many have put into motion plans to move his operations off-world to the refurbished, Moon Base Alpha - which had been a key component of the Secret Space Program and was shuddered back in the mid 2020's when the Great MAGA King rose to power and fulfilled President Kennedy's dream of scattering the rouge Military and Intel Agencies to the four winds. Other say that the base was already being abandoned as much of CIS Humanity manning the off-world star fleet had already been transformed to Transhuman by an early generation of Skynet Technology and thus,



AHRIMAN'S GREAT SOCIAL RESET

they no longer felt much connection to their CIS Human Brethren left back on the surface and collectively voted to move operations off to a better galactic neighborhood or so, it's said. Where did they go?

Seems they didn't tell anyone nor chose to leave a forwarding address.

Recent articles from the press in the Free Nations documented a joint Rus-Chinese Mission to the Alpha Station to survey it condition and it seems that those off-world hooligans didn't even leave airlocks and scribbled ugly anti CIS Humanity Graffiti all throughout the remains.

What will become of Ahriman's core (35% of the willing) cadre of faceless clerks and socialist accountants who were actively engaged in the daily operations of the Great Social Reset as part of a Deep State joint

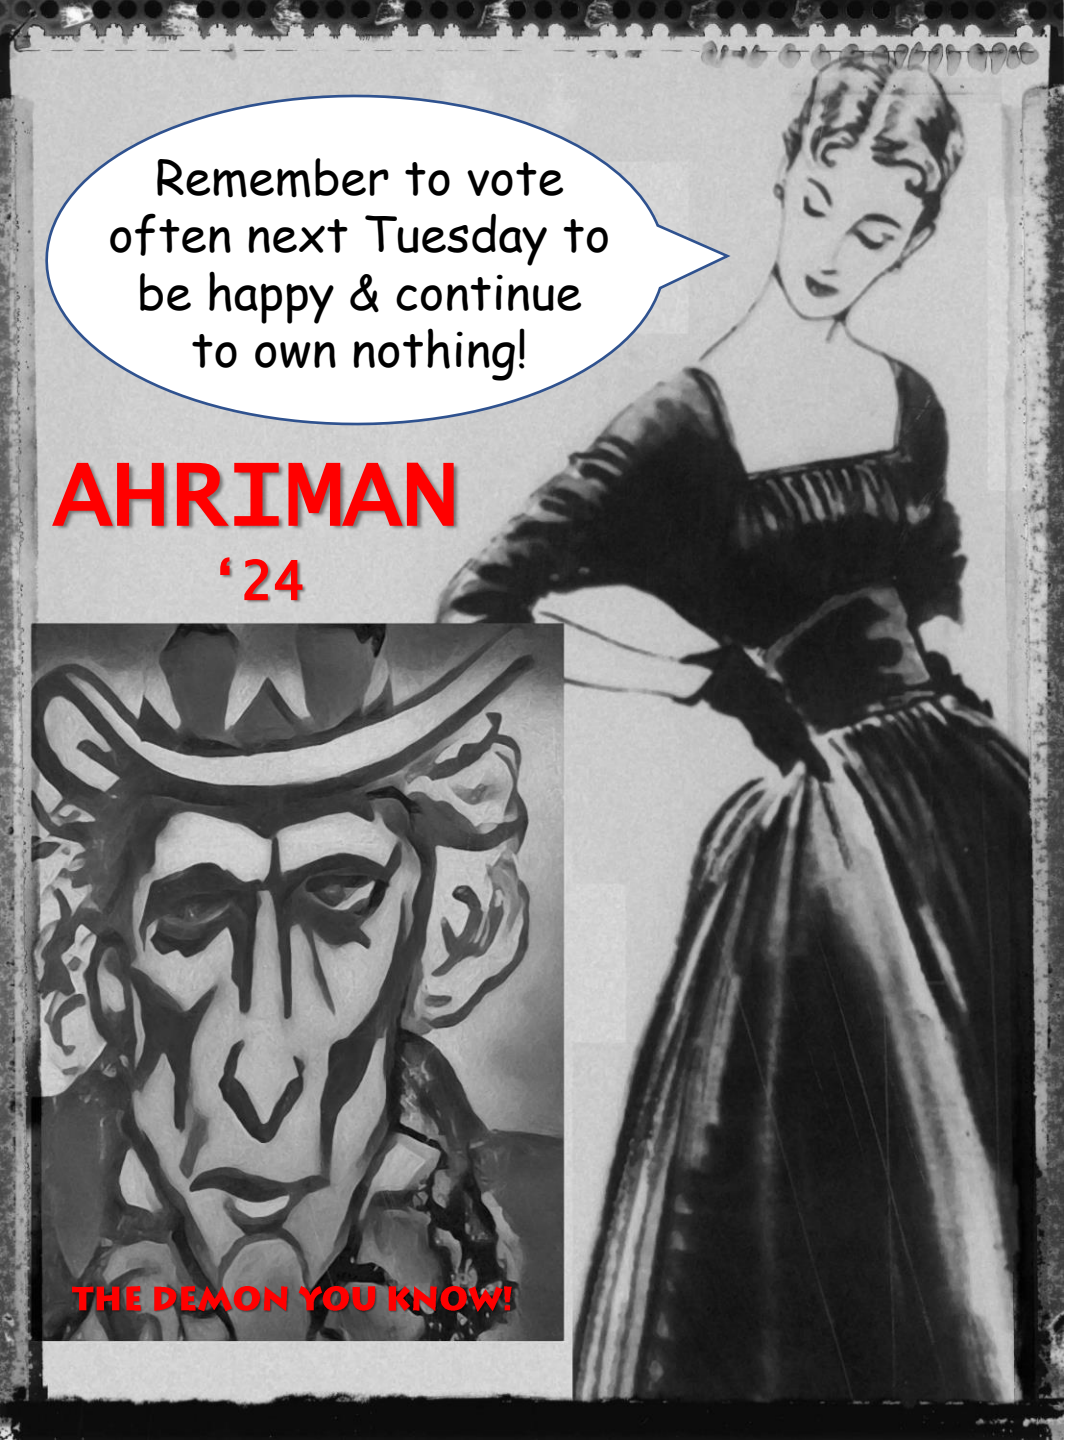
AHRIMAN'S GREAT SOCIAL RESET

venture with the WEF Goonies to impose Ahriman's desires upon the remains of CIS Humanity (as the converted Transhumans need no control as this is a built-in part of their core operational robotics with much thanks to Billy D. Gated's nanotechnology other than those equipped with those early nanochips from the non defunct Aceme Heavy Industries)?

Much speculative banter on the restored social media internet is a buzz over reports of mass group suicides of Ahriman Loyalist that are scheduled to be left behind or as one such loyalist was quoted:

"I would rather die on my own terms than have to face the raft of all those common rubes that we tortured for all these years…"

So as the age of Ahriman's Great Social Reset



AHRIMAN'S GREAT SOCIAL RESET

comes to a close; it might be worth a moment of reflection on what was achieved and more so, on what was lost.
Still, again, this might not be the right time for an honest exchange on the meaning of all of this.

AHRIMAN'S GREAT SOCIAL RESET

The recent International Convention of the Federation of Free Nations has issued as series of White Papers dealing with the perception of the fall of Ahriman's Great Social Reset and rumors of his planned move of his logistical operations to the Alpha 1 Moon Base from his current international capitol in Tulsa.

The ramification(s) of this pending collapse of his "Collation of the Willing" Consortium requires that the Free Nations be prepared to regain global control and deal with the massive efforts that will be required to restore world order back to what the Federation is openingly referring to as the most important issue of our generation and how it is critical that the Federation be prepared to deal with a massive number of social, economic and civil

AHRIMAN'S GREAT SOCIAL RESET

issues that are the Ahriman Legacy.
The delegates from over 80 nations came together last week in Canton to address many of these many issues and start to device a working plan in how to restore order, offer assistance and what assistance will be offered to the failed nations that represent the Ahriman Consortium.
As most people are aware, there is deep concern amongst nations bordering the consortium over the potential of a deluge of economic refugees swamping these nation states and there was an extended season amongst the member nations in how to collectively deal with this pressing issue.
In the past, massive population migrations was mitigated by the lack of a working transportation system remaining within most

AHRIMAN'S GREAT SOCIAL RESET

of the Ahriman States to facilitate more than random, small groups attempting to cross into Federation Territories and was (for the most part) controllable but, it is feared that with the complete breakdown of social order as Ahriman's off-world rent-a-thugs evacuate with him to Moon base Alpha there is the real potential to possibly see massive amounts of the Consortium's population in fluid motion towards the Federation's Frontiers and for the real potential of millions of people overwhelm existing Federation Border protections.

It was noted that the Mexican and Canadian (with Mexico and later Canada – after the Trucker Revolt, had declared their neutrality) Governments with the massive construction of a multi-layered, border wall complex to prevent illegal entry.

AHRIMAN'S GREAT SOCIAL RESET

The conference highlighted the Mexican approach where they expended vast amount of national treasury to erect a 40-foot wall from the Pacific Ocean to the frontiers of the Republic of Texas where the border is completely open and free for commerce as both had a solid working partnership and with Mexico offering security guarantee(s) to the Republic of Texas with rumors abound that Mexican Special Forces have for years been fighting unofficially on the frontlines again Ahriman's Legions.

While Canada after the insurrectional revolt overthrew the Dictatorship of the minority, woke government, was totally unprepared for the first mass migration of the formerly rich, previous WEF Goonies and their fellow rich elitist minions fleeing Ahriman's demand that

into what had once been the USA. While many delegates thought that these measures might be drastic, they all agreed (short of other solutions to address the systematic root causes of this potential mass realignment of populations) that this might be needed to ensure that the Canadian Crisis not be repeated especially as it seems that millions of the impoverished masses in the former EU Nations already seem to be on the move before the full onset of the coming winter according to Russian and Turkish Officials.

The Conference voted that non-frontline states would create a new fund to assist border nations to build up their own border protection system.

AHRIMAN'S GREAT SOCIAL RESET

On a sidebar discussion, there was concern over the growing rumors of both Canada (which has already established a buffer zone on the territory of the former USA as part of their border defense system) and Mexico's plans to militarily seize large sections of Western America under the pretense that they are liberating lands that had been stolen from them in the past.

For Canada, this would mean that they might try to seize a large area of the Central Plains all the way to the Pacific West Coast down to Northern California and with the Mexican Military (incoordination with elements of the Republic of Texas National Guard) is planning to seize of all Mexican lands lost to the gringos back in the mid-1840's.

While the Republic of Texas mute on these

Mexican Invasion rumors, there is much support from government officials towards the abandon oil fields in and around Ahriman's Capitol of Tulsa.

Texas Officials have long argued that these oil fields are vital to helping the ROT rebuild it's industrial base after rouge units of the Llyod Austin biometric, bio-gender Brigade (of the Anifia Militia) had used the discarded nuclear ICBMs from the bases in the Nebraska Territories which they seized, refitted and launched a massive EMP Attack against the advancing Ahriman's Legions and which (also) fried all electronic circuitry and most modern machinery in the ROT with a massive electronic pulse.

Or, so is their argument that the oil is needed to help restore the ROT electrical grid and only

fair considering the hardship(s) that the people of ROT have had to live with for the past almost six-years now.

In the main session of the conference these issues were side lined for later discussion as they were unconfirmed rumors at this point in time.

As the conference turned it's attention to assistance and in the discussion of helping rebuilt the poverty stricken Ahriman Nations, a collation of South American and African Delegates put forth a proposal that the Free Nations should sponsor the establishment of Colonialization as means to restore order and assist them in their long-term efforts towards recovery.

Some delegates later reported that the discussion was somewhat vindictive due to

the long centuries that the proposing nations had suffered dearly under the yoke of Western Colonialism; still, a vast majority saw that this might be necessary given the fact Ahriman, his cronies activities and the massive EPM Disaster in Amerika would require years of continued efforts just to restore order.

While, most would have normally decried this along with the Mexican Army seizing the Western half of Amerika, it was in many ways welcome especially in dealing with the newly established network of Warlords tat have seize areas abandon by Ahriman's Legion.

One delegate openingly commented:

"It is far better we leave these Warlords like Llyod Austin (who has build a sizeable kingdom based in the Tucson Area and his rumored attempts to be retooling the

AHRIMAN'S GREAT SOCIAL RESET

Raytheon Missile Factory there) and the rest of these crazed, waring clans to the Mexicans…without us having to send our own boot-on-the-ground to fight what will be endless years of localized insurrections…"

Another serious issue that was approached in passing was "How to deal with a young generation indoctorated in WOKE Ahriman philosophy and not unlike the Hitler Youth of the past century, they have been programmed since rear birth to believe in all things Ahriman and many believe (like the Hitler Youth) that it will be next to impossible to change their social and moral programming.

This was a difficult issue to deal with and all agreed that this will need much more study by the Free World's leading scholars to find a solution(s) or at least, this was the consensus of the conference.

One delegate who will remain unnamed believed that the whole of the Ahriman Nations needs to be quarantined in some form of a forbidden zone without aid or assistance until such time as the current generation has passed away.

He admitted that the Free Nations would reserve the right to destroy or retrieve dangerous materials like the abandon nuclear facilities and any advanced centers of technology which might have survived (especially in Amerika) the EMP Disaster.

"Given their history, we should allow them to continue along the Path of Ahriman's dream of making them a 13th Century Agrarian Society…"

Not much was discussed as to any plan to deal with an Transhumanists left behind in

Ahriman's departure mostly because Free World Scientists have developed methods of hacking the nanochip technology that is the main (core) operating system for their robotic outer shell.

They have discovered that certain modulated frequencies and optical scanning can easily shutdown the Skynet and Billy D. Gated Aceme Heavy Industries Nanotech systems which they freely passed on to the ROT Defense Ministry and turned the tide in the Ahriman-ROT War in favor for the Republic of Texas as they were able to blunt the Ahriman Legions of Transhumanist Immortal Brigades and without them, the Ahriman's Legions were quickly routed or surrendered in mass to advancing ROT-Mexican Army Units.

hundreds-of-thousands of Transhumans were disabled or outright destroyed in the Great EMP Disaster (in Amerika) and such, there is not much concern among the delegates at the conference as they felt that the issue(s) had been resolved on its own...

The final conclusion(s) as drawn out in the conference's White Papers were that the last 10-years have been (collectively) the greatest disaster in world history since the fall of the First Humans in the union busting, Noah Flood.

They also concluded that it may well take a generation or more to restore the world and CIS Humanity back to the glories of the Golden Age (if ever, some believe).

Finally, many have suggested that this was a waste of effort, time and currency as
